Ready to sell, this cottage style home has a sophisticated feel! The seller just had the hardwood floors in the foyer, family room, kitchen and dining room refinished! The kitchen has been updated with GRANITE countertops, custom cabinets on the lower half, oversized sink, and stainless steel refrigerator and dishwasher. The master bedroom has a huge walk-in closet and dual vanity. Finished room over the garage would make a great play room, media room or 4th bedroom. This home has room to grow in, so would be perfect for a young family! The front yard has been newly landscaped. The back yard is completely fenced and private and has a nice screened porch. This quiet cul-de-sac street with sidewalks, has access to Lake Francis with a sitting area to enjoy the wildlife. If square footage is important - MEASURE!!
